## PROJECTS

### BLOOD BANK

**DURATION:** JAN-2024 TO APR-2024

**Description:** Developed a Blood Bank Management System designed to manage blood donations, donor information, and blood availability. The platform allows users to register as donors, search for nearby blood banks, and request blood based on real-time availability. Admins can manage donor details, track blood donations, and monitor the inventory through an easy-to-use interface.

**Technology Used:** HTML, CSS, JavaScript, Firebase Realtime Database
